

APPOINTMENTS

DR NITIN JOSHI JOINS ALOK AS VICE PRESIDENT-TECHNOLOGY

Leading masterbatch provider, Alok has appointed Dr Nitin Joshi as Vice President-Technology. An IIT graduate and a Ph.D. holder from UDCT, Dr Joshi has an extensive 25 years of experience within Product Development, R&D, Regulatory Affairs and Quality Control. He will play a key role in helping Alok's customers navigate the various national & international regulatory norms and provide them assistance in enhanced analytical and forensic testing.

Commenting on the appointment, Vikram Bhadauria, Director, Alok said "I am thrilled to welcome Dr Joshi at Alok. His deep understanding of the industry and customer's requirements will prove extremely valuable as we undergo transformation and gear up for the next phase of our growth. I also look forward to his invaluable leadership in making Alok a more service-centric and solutions led organisation."

Talking about his new role, Dr Joshi shared, "Alok has been at the forefront of innovation in the masterbatch industry and ATIC has been the birthplace for many of its pathbreaking solutions. I am very excited to join them at this inflection point in their journey. It provides me a brilliant opportunity to get involved with various aspects of creating solutions and participate in the company's growth journey."
